

Kil[®] PG Talcum powder

Insecticide for cats and dogs that acts against fleas and ticks. Talcum Powder.

Formula:

Carbaryl..... 5.0 g
Talcum powder q.s. 100.0 g

Indications:

Talcum powder that acts against fleas and ticks.

Dosage and Administration:

Dust over the animal's body. Rub against the nap so that the talcum powder penetrates the skin. If necessary, repeat the treatment once a week. For a better biological control of fleas and ticks, it is advisable to treat areas where animals usually sleep and if possible the rest of the environment. It is not recommended that animals get in contact with water after the application of Kil PG talcum powder.

Package:

Plastic pot containing 100 g.
